

Engineers' Club of Philadelphia

Founded in 1877

Supporting Engineers and Promoting Engineering in greater Philadelphia for over 135 years.

WHO WE ARE

Founded in 1877, the Engineers' Club of Philadelphia (ECP) is one of the oldest professional clubs in the nation.

The ECP is dedicated to relationship building and networking among technical professionals, communication and collaboration among engineers, raising the awareness of engineering in our society, and the professional development of its members. Its vision is to be the unifying club for engineers and related professionals in the Greater Philadelphia Region.

The Philadelphia Engineering Foundation (PEF) is the charitable arm of ECP. The foundation's mission and vision are to help develop and retain local engineering workforce and support the role of the engineering profession in the Greater Philadelphia Region.

DELAWARE VALLEY ENGINEERS WEEK

ECP coordinates the annual Delaware Valley Engineers Week Celebration in conjunction with local chapters of engineering technical societies, corporations, and universities.

Professional, collegiate, and secondary school award recipients are recognized at our annual Awards Luncheon, with additional recognition of the art of engineering at the Young Engineers Social and Celebration of Engineering Reception.

PROFESSIONAL DEVELOPMENT

ECP offers courses, meetings, and tours which meet the needs of many practicing technical professionals. In today's rapidly changing world, it is essential that engineers not only maintain, but continually increase both technical and management skills to remain, and often create, at the cutting edge.

“Engineering touches almost every aspect of our daily lives and in general, it is done so well you don't even notice its happening. It looks like magic.”

AFFILIATE AFFAIRS

ECP maintains an on-line listing of engineering and technical societies.

ECP hosts semi-annual Affiliate Society Leadership Summits to cultivate partnerships with other technical and professional societies around common areas of Interest.

Technical Tour

STUDENT OUTREACH

Discover Engineering in Greater Philadelphia is a student outreach website providing information about engineering and engineering programs for K-12 students, parents, educators, as well as scholarships and internships.

PEF offers scholarships for high school seniors and college students and outstanding secondary school math and science teachers and collegiate student paper awards.

Delaware Valley Engineers Week Reception
